PREFACE.

DURING the last few years, and in connection with the wide distribution of the Scriptures among the Jews, the need for good tracts for Jewish readers, in greater number and variety, has been urgently felt. More than one type of tract is needed, that is to say, the simple and attractive tract message is required, as well as the learned and didactic—that addressed to the sinner as well as to the student. Most of the Missionary Organisations working among Jews have done something along this line and done it well; but we venture to say that there is room for each to do more, and also to make more use of the productions of others besides their own.

In the work of the Mildmay Mission to the Jews we have felt the need acutely, and are desirous of purchasing and distributing the tracts we hold to be the best for the purpose in view, wherever or by whomever produced. Moreover, we are frequently applied to for grants of tracts by workers among Jews outside the Mildmay Mission, applications which, till now, we have only been able partially to respond to. Addressing our attention to this need, we came to see that the first step was to acquaint

ourselves with all existing tract matter intended or useful for Jewish readers.

Thus, the present catalogue has been compiled with great care: the Rev. Louis Meyer having kindly made himself responsible for the American portion thereof.

That it may assist others—specially Jewish Missions and workers—in knowing where to obtain what they need, or on what lines their efforts should proceed in producing further tracts to supplement the present supply—we publish the list herewith and send it forth with loving greetings and goodwill to all concerned in the evangelisation of Israel.

Notes of errors or omissions will be very gratefully received.

TRACTS AND BOOKS FOR JEWS,
PUBLISHED IN AMERICA.

A LIST COMPILED

BY

REV. LOUIS MEYER,
HOPKINTON, IOWA, U.S.A.

Dedicated to

REV. JOHN WILKINSON,
In Christian love.

PREFATORY REMARKS.

IN compiling this list no attention has been paid to the very numerous appeals to Gentile Christians in behalf of the evangelisation of the Jews, or to purely historic treatises concerning the Jews and missions to them. As far as we know, the tracts and books mentioned in this list, the great majority of which have been read by the compiler, are suitable for the presentation of the truth as it is in Christ Jesus, to the intelligent Jew.

The compiler would be glad if his attention were called to omissions and mistakes.
